India is going to a high economic growth trajectory and become an economic power next to the USA and China in the 21st Century. The purpose of the management education should be, therefore, to develop globally competitive professional managers who could contribute to the building up a strong national industrial and business base to ensure this dynamic. Yashaswi's IIMS has always been quick to grasp the changing requirements of the business / corporate world and has taken necessary actions in the form of introducing additional courses to the students. On these lines, we also focus on frequent industry interaction, to know our employer expectations. Our dedicated faculties ensure personalized attention to students and are ever willing to be available to the alumni too.
