FROM THE CHAIRMAN'S DESK

At Yashaswi, we always believe that education at individual level raises self-esteem and furthers opportunities for employment and earnings. And for a country, it helps strengthen institutions within societies, drives long-term economic growth, reduces poverty, and spurs innovation. As the whole world is going through an authentically global crisis, it is also a global turning point. Today the world is facing a

learning crisis. While there have been discussions of 21st century competencies that the young minds will need to flourish in a future economy, one in which some of the jobs have not been even invented yet. As the needs of business and society have changed, our emphasis is to imbibe innovative, analytical and visionary skills in the young minds and prepare them for the unforeseen challenges. With the changes, the institute has also evolved and continues to bring about positive changes to prepare future managers for an expanded role in the business world.

With the ever changing and ever evolving management education, we too have evolved and developed extensive modern teaching methodologies that transform ideological thinking to practical thinking that lead to ideas that are out of the box and triggers creativity. Our faculty is continuously engaged in academic research, corporate training and industry consultancy assignments for keeping abreast with times Yashaswi's IIMS aims at creating an exciting and engaging environment for students to pursue their studies as well as engage in activities that will make them successful human beings.

As we successfully complete 13 years of academic excellence, we renew our commitment time and again to uplift the standard of education and to establish ourselves as a reputed and valuable contributor to the society. It is my great pleasure to welcome the highly talented generation of today to become a part of Yashaswi Education Society's 'International Institute of management Science.

Mr. Vishwesh Kulkarni

Chairman – Yashaswi Group

FROM THE MANAGING DIRECTOR'S DESK

“You cannot lead unless you are future-oriented”

-C.K Prahlad

From Galileo, Newton to Steve Jobs, Mark Zuckerberg, people with skill and commitment have harped on innovations and developments out of the inherent urge that pushes one to the end. In order to survive in this fast evolving world, one should be able to identify new opportunities by focusing on the weak signals. Creating an adept work force for the 21st century is a challenging task. With this aim in mind we strive hard to innovate, develop and deliver in our courses and the other activities in a well-organized manner. We at IIMS have always believed in the complete development of an individual and see a potential leader in every student, treat every mind with the respect that is deserving of one who is to achieve greatness. The institute believes in making a rich learning environment by providing the best facilities and the latest resources which help the students widen their horizons and learn better. The determined effort that we have put behind our student development has helped all our students to become competent individuals who add value to the society.

Today, IIMS looks beyond the frontiers of formal and traditional education and hope to emerge and be recognized in the coming years as a place for shaping and creating the next generation professionals

I wish you all success and look forward to a wonderful experience with you!

Mr. Abhishek Kulkarni

Managing Director- Yashaswi.

FROM THE DIRECTOR'S DESK

India is going to a high economic growth trajectory and become an economic power next to the USA and China in the 21st Century. The purpose of the management education should be, therefore, to develop globally competitive professional managers who could contribute to the building up a strong national industrial and business base to ensure this dynamic. The management students would be judged not by their personality but by their knowledge, wisdom, creativity, forward looking approach, analytical skills, and capability to cope up with business risks, communication skills and innovative ideas.

Yashaswi's IIMS has always been quick to grasp the changing requirements of the business/corporate world and has taken necessary actions in the form of introducing additional courses to the students. On these lines, we also focus on frequent industry interaction, to know our employer expectations. Our dedicated faculties ensure personalized attention to students and are ever willing to be available to the alumni too.

Maintaining a strong connection has always been an essential part of the culture at Yashaswi and it is evident from the close linkages which we have with our alumni. Today we can proudly say that our alumni are doing exceptionally well in their careers in India and abroad while staying engaged with their Alma mater.

On behalf of Yashaswi's IIMS, I am very happy to welcome our next batch of exuberant, young aspirants to the Institute. We look forward to our new entrants to come up to the expectations of the Institute and be part of this dynamic momentum that we have set for ourselves.

Dr. Shivaji D. Mundhe

Director- IIMS

FROM THE COORDINATOR'S DESK

To be a successful leader, you must be able to bring individuals from all backgrounds and with apparently opposing goals together for a shared cause. If you are on your path to being a leader, you enjoy thinking creatively, motivating and directing others, experimenting with new ways, and making intuitive judgments. True leaders have strong analytical and problem-solving abilities. One of the most essential ingredients of success is the character of an individual. We at IIMS have always nurtured our students to bring out the very best leadership qualities in them and to mold their characters. Our emphasis on honesty, fair play, and integrity go a long way in ensuring the success of our alumni when they go out into the world. Our real strength is the alumni who hold important positions in leading business and government organizations in the different parts of the world. Some of them have become successful entrepreneurs and generated wealth and employment opportunities in the country.

As our country is determined to become a great nation, the IIMS is contributing to its endeavors through its students who will be the future leaders of the Nation.

Chhatrapati Shivaji Maharaj carved out an enclave from the declining Adilshahi sultanate of Bijapur that formed the genesis of the Maratha Empire. progressive civil rule with the help of a disciplined military and well-structured administrative organisations. He innovated military tactics, pioneering non-conventional methods which leveraged strategic factors like geography, speed, and surprise and focused pinpoint attacks to

defeat his larger and more powerful enemies. He revived ancient Hindu political traditions and court conventions and promoted the usage of Marathi and Sanskrit, rather than Persian, in court and administration. Students have to create their brand from the working style in the organization in any field, like Chhatrapati Shivaji Maharaj created. Dr. Shivaji Mundhe, Director of IIMS, staff, faculty members, and students of IIMS, as well as other members of the Institute, were present for the webinar. Dr. Shivaji Mundhe, Director of IIMS, welcomed the guest speaker, Dr. Aniruddha Digraskar, and the participants. He had briefed about various activities conducted by Yashaswi Education Society's International Institute of Management Science.

Ms. Namrata Kadam introduced the guest, Dr. Aniruddha Digraskar. Dr. Aniruddha Digraskar elaborated on the process of applying for a patent.

He said, the first step is to write down our idea and the invention we are planning to patent, and how we are going to get the patent. In his case, he identified a problem in the dairy industry –mastitis, which is a disease in which the animals stop giving milk. He invented an oral therapy to recover animals from the disease. He started documentation and drafting the same in 2008. He had to document the advantages and how they are benefiting the industry. Before this product, there was no such product in India and, initially, this idea was rejected by people as there were only antibiotics in the form of injectable available. Dr. Digraskar also discussed the procedure and the documentation like form-A, technical and legal aspects required for registration of a trademark.

He mentioned that IPR provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc. He mentioned that he had registered 12 trademarks.

The main benefit claimed for strong IPR protection is that by allowing innovators to appropriate a share of the benefits of their creative activities, R&D is encouraged, which

Leads to innovation and higher long-run growth. According to him, The impact of IPR protection on domestic innovation is likely to vary with a country's level of development and its factor endowments. More generally, we may expect IPRs to impact on domestic innovation differently in countries with significant innovative capacity as opposed to those with few resources available for domestic innovation. According to him, The rise in Indian economy is a clear impact of Intellectual Property (IP) influence in the country. By setting up new technology, incubation centers in various parts of the country and providing financial aids to the technologist, the Research & Development (R&D) status of the country has been boosted up.

The session was concluded with a formal vote of thanks by Ms. Namrata Kadam followed by the Director-IIMS. The Webinar was coordinated by Dr. Pushpraj Wagh.

बौद्धिक संपदा अधिकारांचे महत्त्व समजून घेणे गरजेचे

पुणे : पुढारी वृत्तसेवा

बौद्धिक संपदा अधिकारांचे महत्त्व अन्वयसाधारण असून विद्यार्थीदशेपासून प्रत्येकाने ते समजून घेणे गरजेचे आहे, असे मत बौद्धिक संपदातज्ज्ञ डॉ. अनिरुद्ध डिग्रसकर यांनी व्यक्त केले.

इंटरनॅशनल इन्स्टिट्यूट ऑफ मॅनेजमेंट सायन्स (आयआयएमएस) तर्फे बौद्धिक संपदा अधिकार या विषयावरील वेबिनारमध्ये ते बोलत होते. यावेळी त्यांनी पेटंट, कॉपीराइट, ट्रेडमार्क या विषयावर सविस्तर माहिती दिली. विशेष वाव म्हणजे हे सांगताना त्यांनी स्वतःचा पेटंटविषयीचा अनुभव, पेटंटची संपूर्ण प्रक्रिया याविषयी माहिती सांगितल्यामुळे विद्यार्थ्यांना बौद्धिक संपदा अधिकाराबद्दलची कार्यक्षमाली

समजण्यास सोपे झाले. बौद्धिक संपदेचे संरक्षण ही अतिशय महत्वाची बाब असून, उद्योजकांनी संशोधन केलेले उत्पादन, त्याचे तंत्रज्ञान, डिझाईन याचे वेळीच पेटंट केल्यास त्याला कायदेशीर पाठबळ प्राप्त होते. ज्यामुळे भविष्यातील आर्थिक नुकसान टाळता येऊ शकते. व्यवस्थापनशास्त्र शाखेच्या विद्यार्थ्यांनी सुस्वातीपासूनच बौद्धिक संपदा अधिकाराबद्दलची संपूर्ण माहिती करून घ्यावी. यातील नियम, प्रक्रिया या बाबीदेखील समजून घ्याव्यात, असेही डॉ. डिग्रसकर यांनी सांगितले. वेबिनारचे प्रास्ताविक आयआयएमएसचे संचालक डॉ. शिवाजी मुंडे यांनी केले.
