#### FROM THE CHAIRMAN'S DESK

At Yashaswi, we always believe that education at individual level raises self-esteem and furthers opportunities for employment and earnings. And for a country, it helps strengthen institutions within societies, drives long-term economic growth, reduces poverty, and spurs innovation. As the whole world is going through an authentically global crisis, it is also a global turning point.

Today the world is facing a learning crisis. While there have been discussions of 21st century competencies that the young minds will need to flourish in a future economy, one in which some of the jobs have not been even invented yet. As the needs of business and society have changed, our emphasis is to imbibe innovative, analytical and visionary skills in the young minds and prepare them for the unforeseen challenges. With the changes, the institute has also evolved and continues to bring about positive changes to prepare future managers for an expanded role in the business world. With the ever changing and ever evolving management education, we too have evolved and developed extensive modern teaching methodologies that transform ideological thinking to practical thinking that lead to ideas that are out of the box and triggers creativity. Our faculty is continuously engaged in academic research, corporate training and industry consultancy assignments for keeping abreast with times Yashaswi's IIMS aims at creating an exciting and engaging environment for students to pursue their studies as well as engage in activities that will make them successful human beings.

As we successfully complete 13 years of academic excellence, we renew our commitment time and again to uplift the standard of education and to establish ourselves as a reputed and valuable contributor to the society. It is my great pleasure to welcome the highly talented generation of today to become a part of Yashaswi Education Society's 'International Institute of management Science.

Mr. Vishwesh Kulkarni Chairman – Yashaswi Group

## FROM THE MANAGING DIRECTOR'S DESK

"You cannot lead unless you are futureoriented"

-C.K Prahlad

From Galileo, Newton to Steve Jobs, Mark Zuckerberg, people with skill and commitment have harped on innovations and developments out of the inherent urge that pushes one to the end. In order to survive in this fast evolving world, one should be able to identify new opportunities by focusing on the weak signals. Creating an adept work force for the 21st century is a challenging task. With this aim in mind we strive hard to innovate, develop and deliver in our courses and the other activities in a well-organized manner. We at IIMS have always believed in the complete development of an individual and see a potential leader in every student, treat every mind with the respect that is deserving of one who is to achieve greatness. The institute believes in making a rich learning environment by providing the best facilities and the latest resources which help the students widen their horizons and learn better. The determined effort that we have put behind our student development has helped all our students to become competent individuals who add value to the society.

Today, IIMS looks beyond the frontiers of formal and traditional education and hope to emerge and be recognized in the coming years as a place for shaping and creating the next generation professionals

I wish you all success and look forward to a wonderful experience with you!

Mr. Abhishek Kulkarni Managing Director- Yashaswi.

#### FROM THE DIRECTOR'S DESK

India is going to a high economic growth trajectory and become an economic power next to the USA and China in the 21st Century. The purpose of the management education should be, therefore, to develop globally competitive professional managers who could contribute to the building up

a strong national industrial and business base to ensure this dynamic. The management students would be judged not by their personality but by their knowledge, wisdom, creativity, forward looking approach, analytical skills, and capability to cope up with business risks, communication skills and innovative ideas.

Yashaswi's IIMS has always been quick to grasp the changing requirements of the business/corporate world and has taken necessary actions in the form of introducing additional courses to the students. On these lines, we also focus on frequent industry interaction, to know our employer expectations. Our dedicated faculties ensure personalized attention to students and are ever willing to be available to the alumni too.

Maintaining a strong connection has always been an essential part of the culture at Yashaswi and it is evident from the close linkages which we have with our alumni. Today we can proudly say that our alumni are doing exceptionally well in their careers in India and abroad while staying engaged with their Alma mater.

On behalf of Yashaswi's IIMS, I am very happy to welcome our next batch of exuberant, young aspirants to the Institute. We look forward to our new entrants to come up to the expectations of the Institute and be part of this dynamic momentum that we have set for ourselves.

Dr. Shivaji D. Mundhe

**Director- IIMS** 

#### FROM THE COORDINATOR'S DESK

To be a successful leader, you must be able to bring individuals from all backgrounds and with apparently opposing goals together for a shared cause. If you are on your path to being a leader, you enjoy thinking creatively, motivating and directing others, experimenting with new ways, and making intuitive judgments. True leaders have strong analytical and problem-solving abilities. One of the most essential ingredients of success is the character of an individual. We at IIMS have always nurtured our students to bring out the very best leadership qualities in them and to mold their characters. Our emphasis on honesty, fair play, and integrity go a long way in ensuring the success of our alumni when they go out into the world. Our real strength is the alumni who hold important positions in leading business and government organizations in the different parts of the world. Some of them have become successful entrepreneurs and generated wealth and employment opportunities in the country.

As our country is determined to become a great nation, the IIMS is contributing to its endeavors through its students who will be the future leaders of the Nation.

These projects and assignments require a great amount of scientific and technical input from the faculty and staff of the Institute. They have given an opportunity for the Institute staff to work on live problems of immediate relevance to the Industry. The projects or assignments coordinated by the Institute for the Academic Year 2020-2021 are as below:
