He discussed about various challenges that the marketer need to face and various opportunities for marketing as a career. He mentioned sincerity, hard work, patience as the essentials for successful marketing.

He advised students that getting only a degree should not be the objective of MBA. However, the students need to be well equipped with updated information about the particular specialization and related industry.

For getting industry ready, he advised that the student should always keep on improving their communication skills, read newspapers, keep updating and most importantly avoid various distractions like mobile, social media, rather these can be creatively used for information sharing and updates.

Mr. Damle quoted that marketing is the only department which requires huge manpower. It is the only department which closes only after the entire company is closed. He said the number of candidates required and the variety of profiles can be seen in marketing job.

Marketing career can provide tremendous growth opportunities, good salary and incentive structures, other benefits like networking opportunities, flexibility in work etc.

He provided various examples and cases on marketing and discussed about various misconceptions that students have towards marketing like – marketing perceived as door to door selling, fear of targets, no security etc.

He solved various queries of students regarding career in marketing.

The main aim of this conference was to bring together leading academicians, researchers, technocrats, practitioners, and students to exchange and share their experiences and research outputs on all aspects of Management. It was also meant to provide a premier interdisciplinary platform to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the field of Management and Information Technology.

The presence of dignitaries, an impressive line-up of scholars from across the globe, and the support of sponsors an array of carefully selected, well-researched and well-presented papers on the subject, all came together to help Team ICIMIT-2023 to admirably conclude this huge endeavour. The conference was applauded for the 11 concurrent sessions, two plenary sessions, besides the Inaugural and Valedictory sessions. This Conference has, without a shade of doubt, made the academic fraternity richer, with the additional literature in form of scholarly works on the subject. This two day event offered opportunities to the participating audiences to interact with activists, academicians, scholars and experts from all over the world who deliberated upon and covered topics around the issues of innovations in management and information technology. The views expressed and explored on this platform by the resource persons and paper presenters made the audience rethink ideas which we cling on to unthinkingly in our day to day life.
