Webinar on "Intellectual Property Rights"

Date: 11/05/2021

Time: 11.00 am

Speaker:

Dr. Aniruddha Digraskar
Founder- Enrich Solutions
Director- Enzyrich Biotech Solutions Pvt. Ltd

Yashaswi Education Society's International Institute of Management Science organized a webinar on Intellectual Property Rights on 11/05/2021. Dr. Shivaji Mundhe, Director IIMS, Staff, faculty members and students of IIMS as well as other Institute were present for the webinar.

Dr. Shivaji Mundhe, Director IIMS welcomed the guest speaker Dr. Aniruddha Digraskar, and the participants. He briefed about various activities conducted by Yashaswi Education Society's International Institute of Management Science.

Dr. Shivaji Mundhe said, that today is the digital era, and there is a lot of importance of intellectual property rights. He said, with intellectual property rights, the innovations and knowledge generated cannot be stolen by anybody. There are various types of intellectual property rights patents, copyrights and trademarks. In various industries like pharmaceuticals, agriculture, education, entertainment and media, companies and individuals are filing intellectual property rights so that their innovations or ideas cannot be copied by other firms. IPR is important in every field and lot of job opportunities are created.

Ms. Namrata Kadam introduced the guest Dr. Aniruddha Digraskar.

Dr. Aniruddha Digraskar started with brief background of his company and its present status. He said that the organization started in 2008. Before launching the organization, he received guidance of industrial experts related to procedures and legal documentations. He started with application of his research based veterinary products for patent and trademarks for being protected from copying by others.

Dr. Aniruddha Digraskar elaborated the process of applying for a patent. He said, the first step is to write down about our idea and the invention we are planning to patent and how we are going to get the patent. In his case he identified a problem of dairy industry - mastitis which is a disease in which the animals stop giving milk. He invented an oral therapy to recover animals from the disease. He started documentation and drafting the same in 2008. He had to document about the advantages and how it is benefiting the industry. Before this product there was no such product in India and initially this idea was rejected by people as there were only antibiotics in the form of

injectable were available. The product which was invented by Dr. Digraskar was easy for administration and the exact enzymatic and biotechnological base medicine for the cure of mastitis. Before applying he written all technical information. After writing, for proving the formula, he approached organizations like department of biotechnology, Government Veterinary College, the product was tried successfully and he approached the patent agent or patent attorney who guided him to write it in legal terms.

The step two include preparing drawings, diagrams or sketches explaining the working of the invention. The drawings and diagrams should be designed so as to explain the working of the invention in better way with visual illustrations. They play an important role in patent application.

The third step is to check whether the invention is patentable subject matter. The fourth step is to find out whether your invention meets novelty criteria as per the Indian patent act. The patentability opinion is provided by the patent professionals upon conducting an extensive search and forming a patentability report. In this step, the patent agent or attorney who is working on your invention helps you in finding out whether your invention meets all patentability criteria which are: a. Novelty b. Non-obviousness c. Industrial application.

The fifth step is to draft a patent application and filing a patent application in the Patent office.

The sixth step is Publication of the application. Up on filing the complete specification along with application for patent, the application is published after 18 months of first filing. An early publication request can be made along with prescribed fees if you do not wish to wait till the expiry of 18 months from the date of filing for publishing your patent application. Generally the patent application is published within a month form request form early publication.

The seventh step he elaborated is the examination of patent application. Only after receiving request for examination that is RFE. Up on receiving this request the controller gives your patent application to a patent examiner who examines the patent application with different patentability criteria.

The examiner creates a first examination report of the patent application upon reviewing it for above terms. This is called FER (First examination report). Everything step taken with a patent application before grant of patent is generally called as patent prosecution.

The next step is to respond to objections Majority of patent applicants will receive some type of objections which would be mentioned in first examination report. The best thing to do it analyze the examination report with a patent attorney (patent agent) and creating a written response to the objections raised in the examination report.

If the response to objections raised in first examination report could not resolve the objections completely then a hearing (meeting in person or on video conference) can be requested. In hearing, you (the inventor) along with patent attorney can discuss with the examiner about the resolution of objections or making changes to the patent application as per the suggestion of the examiner

(panel). This communication (written or in hearing) between patent office and patent application (inventor) is to ensure that all objections raised in the patent application are resolved. (if not the patent will not be granted) and the inventor has his fair chance to prove (argue) his point and establish novelty and inventive step over existing prior arts. Upon finding the patent application in order of grant, it is a grant to the patent applicant as early as possible. Thus Patent Granted.

He noted that as their product was novel, they did not have any objections and challenge by anybody and he succeeded to get the patent filed in the name of Enzyrich with all kind of legalities in 2010.

Dr. Digaskar also discussed the procedure and the documentations like form- A, technical and legal aspects required for registrations of a trademark. He mentioned that he has registered 12 trademarks.

He started a private limited firm in the year 2018 named Enzyrich Biotech Solutions Private Limited. It is involved in Research and experimental development on social sciences and humanities. The trademark registered as Enzyrich can be used for many class 5 and class 35 sections in various formulations based on veterinary, human or poultry formulations. ‘बौद्धिक संपदा अधिकारांचे महत्त्व समजून घेणे गरजेचे’

पिंपरी : बौद्धिक संपदा अधिकारांचे महत्त्व अनन्यसाधारण असून, विद्यार्थिदशेपासून प्रत्येकाने ते समजून घेणे गरजेचे आहे, असे मत बौद्धिक संपदा तज्ज्ञ डॉ. अनिरुद्ध डिग्रसकर यांनी व्यक्त केले. यशस्वी एज्युकेशन सोसायटीच्या इंटरनॅशनल इन्स्टिट्यूट ऑफ मॅनेजमेंट सायन्स (आयआयएमएस) तर्फे बौद्धिक संपदा अधिकार या विषयावरील वेबिनारमध्ये बोलत होते.

यावेळी त्यांनी पेटंट, ट्रेडमार्क, कॉपीराइट, ट्रेडमार्क या विषयावर सविस्तर माहिती दिली. विशेष बाब म्हणजे हे सांगताना त्यांनी स्वतःचा पेटंट विषयीचा अनुभव, पेटंटची संपूर्ण प्रक्रिया तसेच एन्झरिच बायोटेक सोल्युशन्स

प्रायव्हेट लिमिटेड ही आस्थापना सुरु करण्यापर्यंतचा प्रवास सविस्तर सांगितल्याने विद्यार्थ्यांना बौद्धिक संपदा अधिकाराबद्दलची कार्यप्रणाली समजण्यास सोपे झाले.

बौद्धिक संपदेचे संरक्षण ही अतिशय महत्त्वाची बाब असून, उद्योजकांनी संशोधन केलेले उत्पादन, त्याचे तंत्रज्ञान, डिझाईन याचे वेळीच पेटंट केल्यास त्याला कायदेशीर पाठबळ प्राप्त होते ज्यामुळे भविष्यातील आर्थिक नुकसान टाळता येऊ शकते. व्यवस्थापनशास्त्र शाखेच्या विद्यार्थ्यांनी सुरुवातीपासूनच बौद्धिक संपदा अधिकाराबद्दलची संपूर्ण माहिती करून घ्यावी, यामधील कायदेशीर नियम

, प्रक्रिया या बाबीदेखील समजून घ्याव्यात असेही डॉ. अनिरुद्ध डिग्रसकर यांनी सांगितले.

वेबिनारच्या सुरुवातीला प्रास्ताविक करताना आयआयएमएसचे संचालक डॉ. शिवाजी मुंढे यांनी आपल्या मनोगतात सध्याच्या डिजिटल युगाच्या काळात उद्योगजगतदेखील बौद्धिक संपदा अधिकाराबद्दल अधिक सजग झाले असून या क्षेत्रात अनेक रोजगारसंधी उपलब्ध होतात. वेबिनारचे समन्वयक डॉ. पुष्पराम वाघ यांनी काम पाहिले, तर आभार एमबीए च्या प्रथम वर्षाची विद्यार्थिनी नम्रता कदम हिने आभार प्रदर्शन केले, या ऑनलाईन वेबिनारमध्ये आयआयएमएसचे सर्व अध्यापक व विद्यार्थी सहभागी झाले होते.

Total 19 students participated in the Decision science competition.

We are living in an era where we all are grappled with the uncertain circumstances, unprecedented events and unforeseen incidences. Decision making in these times have gained momentum. The ability to make right and crucial decisions at right time has become pivotal to sail through the difficult situations. Fortunately we have developed some wondrous decision making tools to help us find solutions to the lingering problems in our routine business and operational functioning. When it comes to the subject of 'Decision Science' in the curriculum of Management program, we normally tend to focus more on the students struggling to understand the concepts and clearing their exams. But nobody cared to pay heed to those who love the subject and have fun solving the numerical to get that feel of ecstasy after arriving at the desired solution. Keeping this in mind Dnyansagar Institute of Management & Research had organized a 'Decision Science Competition' for the students of Management programs of SP Pune University.

This event was supported by 'puneMBA.com'. To our utmost surprise, the concept was very well received by the student community. We received an astonishingly overwhelming response and witnessed more than 350 registrations. The students enthusiastically participated in the numerical solving competition.

The competition was graced with the address by three subject experts; Dr. Satish Ubale, Director, Matrix School of Management Studies, who addressed the participants on the topic 'Thought behind the redesigning of the Syllabus and expectation from Students'. Dr. Roshan Kazi, Director, Allana Institute of Management Sciences, who guided the participants on the topic 'Future of Data Science and how Decision Science can help?' Dr. Ranjeet Chitale, Associate Professor, PUMBA & Renowned Author, who guided the students on the topic 'How to study and score in Decision Science?'
