

The tournament name was B.H.A 2<sup>ND</sup> DIVISION which was held in Mahindra Hockey Association, Mumbai which is one of the renowned grounds in the India. The tournament was of State level where teams from all India participated. There were total 43 teams in the tournament including our team.

As the tournament proceeded, we played 9 league match where our team was undefeatable and we won all the match with very ease as we had a very strong team.

Then the knockout matches started, quarterfinals was very easy match as we won 7-0, then we played semifinals where we won 3-1 but the most exciting match was in finals with hockey Dadar as their team had 3 Indian players. But I being a captain of our team I motivated my team and make them believe that our team is the most strongest team. As match proceeded we scored a goal in first 5 minutes, as we scored the goal our all team got boost and played as a strongest team and we won the tournament 7-2 and clinch the Cup.

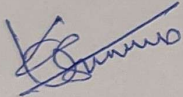

It was one of the greatest experience as the team player and as a leader also.

And I would special thanks my college and all my faculty members for supporting me and motivating me.

They always believed in me as the was able to see my potential.

Thank you once again to the IIMS and the Faculty members.

At last but not least I would like to say " The Teachers are the one who is able to identify the potential and bring out the best from their students" and am really very thankful for this.

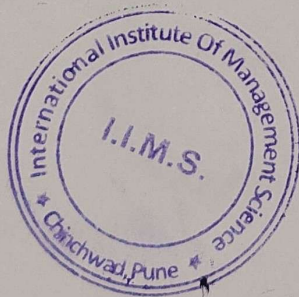

Thank You

Horizon Sportiva Corporate Cricket Tournaments organised his 4th season cricket tournament at Loni kalbhori cricket ground. Regularly our team Flex Blackcaps participating in this tournament. Previously we were on 2nd position in all the season, This time we came up with a few of new players and strategies with clear intentions to win the Final. There were 2 league matches scheduled in the morning with Rustom Royals and Sporting Legends respectively. Both the times we won the toss elected to bat first.

We gave our best to win the league matches and defeated them with the all-round performance. We were on the 1st position in the points table and qualified for the quarter finals. Again we won the toss and batted first with good score 72 runs and won the match 32 runs.

Now it was crucial situation where we have to play Semi final against Team Takshak which was known for his great batting, fielding and we had to play against them in the hot afternoon and only 5-10 min break given to refresh. Unfortunately we lost the toss and Team Takshak choose batting. We kept our moral in very positive way to fight against them. We got the target on board to chase 65 runs within 5 overs. Our start was not so good we lost our 3 main wickets within 21 runs but rest our batsman made a partnership which helped us to win the semifinals. We won the semifinal with 5 wickets and entered in to the finals. Now both the team were equally strong and everyone's eye on who is going to win the title. Flex Blackcaps and Team Titans were the teams which didn't loose any match from the beginning. We won the toss and elected bat first. Against their bowling attack we scored 42 runs.

We were almost 15-20 runs short from our decided target. Everyone gave their best in bowling and fielding but unfortunately which was not enough to win the match. We are the Runner up in this tournament. We are really happy with our satisfactory performance which is very necessary to boost our confidence to win the next tournament.

Over-all we are on the Top rank in the Horizon Sportiva including all seasons.
